

[illegible]

Technical drawing of a reinforced concrete slab cross-section (Fig. 1.10). The drawing shows a slab with a total thickness of 150 mm. The top reinforcement consists of 8 N2 Ø 12.5 bars (C=375) and 4 N1 Ø 8 bars (C=470). The bottom reinforcement consists of 8 Ø 12.5 bars (C=125) and 4 Ø 8 bars (C=8). The slab is supported by a 60x100 mm beam. The drawing includes dimensions for the slab thickness, reinforcement spacing, and bar diameters. The reinforcement is labeled as S69, S67, S68, S70, and S71.

A diagram of a rectangle with a horizontal top side labeled 36 and a vertical left side labeled 94. A line segment extends from the top-right corner of the rectangle to the right.
